

Ricoh Smart Operation Panel

RICOH
imagine. change.

Our Smart Operation Panel will change the way you work.

The complexity, mobility and pace of today's workplace is changing the way you do business. And more change is coming. We know you need to be more connected than ever, and Ricoh's innovative and award-winning Smart Operation Panel will transform the way you use printers and MFPs, enabling you to do more and complete jobs more efficiently and effectively.

This intuitive, tablet-style touchscreen panel brings a wealth of usability benefits, combining capability-extending applications and productivity-enhancing technology that will boost your workflows and operations.

But perhaps more importantly, the Smart Operation Panel offers a simple, flexible way to work.

Its quick user interface (UI) gives one-touch access to common functions like copying and scanning – or for total job control – intuitive UIs make even the most complex layout and finishing options easy to preview and configure.

- 10.1" tiltable widescreen
- One-touch quick print and scan
- Workflow enhancing Apps
- Built for flexible and mobile working
- Featured in Ricoh MFPs and Printers

Ready to go.

At the heart of our range of smart printers and MFPs is our powerful, Smart Operation Panel. Its easy-to-use touch and swipe colour screen makes mobile and flexible working simple and improves your workflow.

The Quick Copy and Quick Scan functions allow you to get the most common, everyday jobs completed in just four easy steps. So you save time but still get all the key functionality you need.

Our intuitive and latest UI gives you easy-access to all the functions you need, and of course, if you're used to using our previous UI, you can switch to that too. So everything is exactly as it was, with the added bonus of having more features available.

4

Quick Copy and Quick Scan

Get the job done in 4 steps

Total control. Total flexibility.

The layout and content of the panel can be tailored to the individual preferences of different users, with immediate access to the most commonly used print, copy and scan functions through one-touch icons.

- ◀ Streamline NX and GlobalScan NX are integrated solutions for document management applications and scan software respectively. And they're both designed to help meet your individual needs and offer additional control over your MFP and scanning functions via our user-friendly UI.

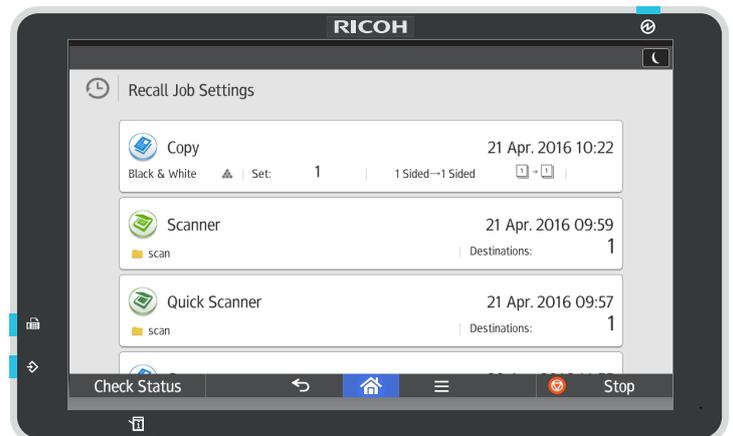

Access all Apps.

Business is forever evolving and nothing stands still for long. That's why the Smart Operation Panel can easily be upgraded by installing new apps from Ricoh's Application Site, allowing you to customise and extend functionality quickly –

and get great results without any fuss. And it's ready to do this straight out-of-the-box, so you can immediately connect with new productivity, production and collaboration tools.

Shared Folder Print

Enables you to preview files stored in a shared folder and check print status before printing.

Recall Job Settings

Recall previous job settings from history for Copy, Scan and Fax functions.

Exactly what you need. Where you need it.

Choose our single function apps – focused on doing specific tasks quickly and simply – or access the Ricoh Application Site via our one-touch button. Here you can download new Apps designed by Ricoh and its developer partners that help you create a richer, more productive working world – one function at a time.

Do more. Even on the move.

Ricoh's new generation of multifunction printers puts advanced capabilities in your hands. We start by providing a new kind of user interface that does away with confusing options and menus and can be customised with features and functions users need to get the job done.

Make the right connection.

Like in business, the more options you have to make a connection, the better the outcome. That's why Ricoh offers a range of connectivity options for linking to the Smart Operation Panel. This includes our Smart Device Connector – which is the easiest way to connect directly with your Ricoh printers, MFPs and integrate with Interactive White Boards and projectors.

It means you can quickly send documents to print and collect scanned images from smart devices – or share files with address book contacts. In addition, it also offers Bluetooth, NFC authentication and QR Code capabilities.

Wireless access exactly where you want it.

When you need the flexibility to connect with an MFP using your mobile device, our Wireless Direct system means you can print, scan, copy or fax without logging-in to the intranet. So it's ideal for guests or visitors, Bring Your Own Device users and people who are always on the move. You can even browse webpages and print direct from PDFs thanks to our built-in internet browser.

Every option you'll ever need.

The Smart Operation Panel is perfect if you're looking for a combination of seamless working and connectivity options that are available no matter where you are.
